PRODUCT DESCRIPTION

SUS 304 316 430 310 2507 22mm 32 mm Tensioners Mi Band 5 6 stainless Steel Metal Strip Stainless Steel Strapping Band

This is the most cost effective grade of steel. So the 304 Stainless Steel strip Price is lower compared to other grades of stainless steels and all metallic products in general. There are different versions of the material with low carbon and high carbon content. The strips and UNS S30400 Stainless Steel Strip Specification varies and the applications differ for the different versions of the material. The low carbon version, 304L strips are very good for welding applications as they have less carbide precipitation and less localized corrosion. The ASME SA240 Stainless Steel 304 strip Thickness ranges up to 200mm and the width and the length ranges widely depending on the application requirements as well.
